4. Work Hard, Smart, Safe and Fast

- **Both Pickers & Sorters may be asked to do the other's job as required.**
- **Pickers:**
 - Get an early start. It's best to pick when it's cool. Day-Break is perfect.
 - Start at the top of the tree before the heat of the day really kicks-in.
 - No Night Picking. Nights are for sleeping.
 - **PICK YOUR TREE COMPLETELY.** Every cherry must be picked. (Spic & Span)
 - If your tree is not picked clean, you will be asked to go back & finish it. Don't leave cherries on the trees!
 - Undesirable cherries (rotten or excessively small) are to be thrown on the ground (not into the bucket)
 - Please leave the Spurs and Leaves on the Tree. **Don't hurt the Tree** ... It never did anything to you!
- **Sorters:**
 - You start at 6:30 (unless otherwise advised)
 - Why? You need cherries to do your job, so you'll have to wait for the Pickers or start by picking yourself until sorting can start. We work till what we picked is packed. Your work-day may be long.
